What would you want to share with the world?

A lot of things seemed to inspire me and I had often found myself subconsciously doodling some random drawings in my notebooks. I wanted to try a different medium for my drawings in order to share the things that I found beautiful and inspiring in the world, with other people who may feel the same.

What influences you & your art?

Anything that catches my eye. I gravitate towards simple, pop-art designs with fun pops of color. Anything from the lively, urban everyday life, people, clothes, music even, can prompt a fun idea for a design.

If you could change one thing in the world, what would it be?

I wish any form of art would be more praised and appreciated, as it is rather overlooked and unacknowledged these days.
